# Schools, universities, college campuses look to panoramic video for unique surveillance solutions

**PELCO**™
by **Schneider** Electric

## Critical Application

### Application Type: **Education**

Pelco and Oncam Grandeye understand that the challenge for security professionals and educational administrators is how to effectively deal with a very wide range of issues on a daily basis, while maintaining a safe, secure and fear-free learning environment — without developing a fortress mentality.

Video surveillance established its credentials long ago as a powerful tool for schools, colleges and universities to combat all forms of criminal activity and anti-social behavior. Now, Pelco and Oncam Grandeye 360° camera technology cost effectively takes video surveillance to an entirely new level.

A panoramic, 360° video surveillance solution delivers Total Situational Awareness which offers so much more than just cameras. It enriches the operator's experience

### Technology: **360° Video**

and empowers them to capitalize on their expertise by providing the video and data needed to instantly gain a real-time understanding of the complete chain of events while an incident or emergency is occurring.

As part of a comprehensive integrated security solution which combines the power of 360° technology with advanced analytics Pelco and Oncam Grandeye can provide educational facilities with the ability to monitor and control access to all areas and observe absolutely everything that has occurred or is occurring on their site.

Security personnel, facilities managers, and school, college and university administrators are able to make fast and informed decisions on how to effectively respond to any incident which may include involving the police or other emergency services.

**Products**
- Evolution 360 Indoor Camera

**About Evolution 360**
- Constant 360° surveillance, no blind spots
- Silent operation, no moving parts
- Quick and easy installation
- Light weight enclosure

- Fully supports IEEE802.3af Class 2 Power over Ethernet (PoE)
- Pleasing aesthetics in either black or white finish
- Minimum illumination 0.2 lux, providing clarity in low lights
- Suitable for ceiling, wall or table mounted applications

- Onboard SD Card for future local recording feature and advanced event management
- Configurable privacy regions
- Video Motion Detection within defined areas of interest
- Local alarm digital input and output
- Audio microphone input
